

Electronic Bidding:

The Right Way & The Wrong Way

Karen Little, OFCC

Christina Miller, OFCC

AIA CES

Provider Name:

Ohio Facilities Construction Commission

Provider Number: G442

Course Title: OFCC Conference 2015

Course Numbers: OFCC 15

Credits: 1.0 LU/HSW

Speakers: Various

Dates: July 22, 2015, July 28, 2015, August 20, 2015, August 26, 2015

AIA CES

This course is registered with AIA CES for continuing professional education. As such, it does not include content that may be deemed or construed to be an approval or endorsement by the AIA of any material of construction or any method or manner of handling, using, distributing, or dealing in any material or product.

Credit(s) earned on completion of this course will be reported to AIA CES for AIA members. Certificates of Completion for both AIA members and non-AIA members are available upon request.

Questions related to specific materials, methods, and services will be addressed at the conclusion of this presentation.

AIA CES – Description & Objectives

This session will discuss the current status of the State of Ohio's transition from paper bids submitted in sealed envelopes to an electronic bidding application. Lessons learned after two years of using the process will also be addressed, including common mistakes by owners, architects, and bidders.

Learning Objectives:

- Examine best practices in creating electronic bid forms for public construction projects in Ohio and what information is needed and when.
- Describe key features of the State's bid form templates and select which template version to use.
- Discuss the process used by bidders in registering, creating a Digital ID, and submitting their bid using electronic bid forms.
- Explain the process used by the owner and architect/engineer in conducting bid openings, as well as harvesting documents for analysis and review of responsive bids and responsible bidders.

Electronic Bidding in Ohio

- Authorized by ORC 153.08 & OAC 153:1-8 in 2011 (part of Construction Reform law)
- Info Tech's Bid Express application was selected through a competitive RFP process in Fall 2012
- Required on OFCC projects after July 1, 2013

Electronic Bidding in Ohio

- As of June 30, 2015*, OFCC has:
 - conducted 177 eBid events
 - received 827 eBids
 - registered 1,392 plan holders
 - distributed 9,932 eBid documents
 - received “valid” eBids for \$403,106,579.16
(Base Bids only – not including Alternates)
 - received eBids 9.90 percent less than estimates

*End of the State’s Fiscal year

Electronic Bidding in Ohio

- Now being used by:
 - Department of Transportation (materials)
 - Turnpike and Infrastructure Commission
 - **Facilities Construction Commission**
 - Department of Natural Resources
 - The Ohio State University (coming soon)
 - Youngstown State University (goods & services)
 - Columbus State Community College

A/E and Owner: Preparing the Bid Form

What we need from the A/E

- 10 days prior to advertisement, email to PC:
 - Draft Public Bid Advertisement (eBid) – Form M299-03
 - Draft Solicitation (Document 00 10 00.EB)

What we need from the A/E

- 7 days prior to advertisement, upload PDF files to OAKS CI:
 - Final Public Bid Advertisement (eBid)
 - Final Solicitation
 - Final Bid Form (Document 00 41 13.EB)
 - Must have Contract Times on the Bid Form
 - Project Manual* (1 or more volumes)
 - Drawings* (Logically divided volumes)

*Maximum files size OAKS CI can accept is 100 MB

What we need from the A/E

- DO NOT upload individual specification sections or drawings.
- The A/E is expected to provide a complete set of Contract Documents in the same order as a Bidder would purchase from a reprographer.
- We will NOT do this for you, so don't even think about it!
- ***I'm not kidding...***

A few useful definitions

- **Allowance:** A sum stipulated in the Contract Documents for a *defined scope of the Work that may not be completely defined* at the time of bidding.

(Document 00 71 00 – Contracting Definitions)

- Tip: We permit use of cash allowances only, which are *fixed amounts* presented to Bidders on the Bid Form that they are required to include in their Base Bid for a bid package.

A few useful definitions

- **Cash Allowance:** A monetary sum that the bidder includes as part of the contract sum to account for certain items to be determined at a later time.
- **Quantity Allowance:** A specified quantity of a product or assembly that the bidder includes in the scope of the work even though the location of the product is not defined on the drawings or in the specifications.

(The CSI Project Delivery Practice Guide)

A few useful definitions

- **Unit Price:** The *cost of providing a unit of Work* including labor, materials, services, and associated expenses.

(Document 00 71 00 – Contracting Definitions)

- Tip: Unit Prices must present an estimated quantity to the Bidders so they may obtain pricing appropriate for the anticipated volume.
- DO NOT use a quantity of one.
- ***I'm not kidding!***

A few useful definitions

- **Base Bid:** The amount stated in a Bid as the sum for which the Bidder offers to perform the Work in a particular trade or other category, which is described in the Contract Documents, *excluding Alternates*.
- **Alternate:** A change in the proposed Project scope, which may include but is not limited to alternate materials or methods of construction, and an amount stated on the Bid form to be *added to* or *deducted from* the Base Bid if the corresponding Alternate is incorporated into the Contract.

(Document 00 71 00 – Contracting Definitions)
