Project Overview

A. Project Description

This project will be to improve South Green Drive at Ohio University's Athens Campus. The first part of these improvements will take place from Adams Hall on the south end of the project to the New Life Church (approx. 2,400 LF). The existing parking along this portion will be reconfigured to address safety concerns. New sidewalks and lighting will be added to this perimeter loop road.

The second part will be from New Life Church west to Stewart Street (approx. 1,200 LF). There will also be an addition of sidewalks on the south side of this portion where sidewalks do not currently exist.

Improvements will consist of milling and repaving the existing roadbed, and placement of new concrete curbs and sidewalks. Improvements to utilities under these streets will also be considered at this time, and addressed as needed.

Additionally, incidental parking and roadway improvements on the Main Campus and the Ridges, not specifically identified at this time, will be considered as part of this RFQ.
