### Project Overview

#### A. Project Description

- Build two (2) new Elementary Schools in grades PK – 5 to house 387 students each.  
The buildings are to be approximately 48,375 sf. each, not including LFI. Total co-funded budget for both schools is approximately \$23.8M.  
The buildings will likely include some additional classroom area LFIs (TBD) with a total budget of approximately \$2.0M. The district is also expecting some building enhancement/features as an LFI with a total budget of approximately \$1.0M. Further evaluation is expected.
- Project is to be built in accordance with the Ohio School Design Manual.
- Scope also includes Abatement & Demolition of the existing Bellville Elementary and Butler Elementary schools. Total co-funded budget for both schools is approximately \$1.8M.
- One new school building is intended to be built on the existing Bellville site located at 195 School Street; Bellville, Ohio 44813 Street. The other new school building is intended to be built on the existing Butler Elementary site located at 125 College Street; Butler, Ohio 44822. Further evaluation is expected.
- It is the intent to have the students from the existing two schools remain in their existing facilities until the new buildings are complete. Further evaluation is expected.
- The district has their local funding in place and formal OSFC Commission approval is scheduled for the July 2016 meeting. The Project Agreement between the District and OSFC is anticipated by August 2016 and therefore it is the intent of the OFCC to have the AE Agreement shortly thereafter.
