

RFQ Question and Answer List

State of Ohio Standard Forms and Documents

Project Name Russ Research Opportunity Center Project Number OHU-14442
Project Location Athens, OH

Date posted: June 21, 2018

Date revised: July 3, 2018

Below are the questions that have been received to date for the RFQ of the above-referenced project:

1. Can you please tell me if this effort was done in-house by OU professionals or were professional A/E consultants engaged? If consultants were used.....which firm(s) were they?

We had a preliminary study conducted and collected in house data. All qualified firms should apply we do not have a preferred firm- it's open.

2. We would like to know if you are looking at this building to be traditional style or more modern architecture?

We have not entered into design so it would be open. This will be part of the task to look at the new "campus"

3. I am inquiring about the Athens / Ohio University / Russ Research Opportunity Center (Russ ROC) project. I was hoping you could tell me if there is roofing involved. If so, what type of roofing material is specified and what is the square footage?

Yes roofing will be included later with the renovation- this RFQ is for design not construction.
