Below are the questions that have been received to date for the RFQ of the above-referenced project:

1. I have a question regarding the RFQ for OSU-190192 for Lincoln Tower 11th and 13th floors. What are you anticipating for the Additional Service Providers Required for Hazardous Abatement? Would it be an Environmental Assessment and Report or will it require the report and the actual contractor to come in and remove any hazardous materials?
 - A. The hazardous abatement consultant will evaluate/survey the existing conditions and create construction documents/specs for bidding purposes.
