

Ohio School Facilities Commission

Fiscal Year 2009 District Eligibility List

The Ohio School Facilities Commission administers several programs that provide state assistance to school districts and community schools in the acquisition construction and renovation of classroom facilities. Each of those programs is centered on the development of a Master Facilities Plan that addresses the entire facility needs of a school district. The programs listed on this chart include the Classroom Facilities Assistance Program (CFAP), the Exceptional Needs Program (ENP), the Expedited Local Partnership Program (ELPP). This chart reflects the progress of each district through these three programs toward completion of all necessary facility work.

Calculation of Project Funding Shares and the Use of Ranking Percentiles

A school district's priority for state assistance from the OSFC is based on the district's three-year average "adjusted valuation per pupil," as calculated by the Department of Education. Under that calculation, the district's taxable "valuation per pupil" is modified by a factor reflecting the income of the district's taxpayers. A district's valuation is the total value of all property in the district as assessed for tax purposes. All districts annually are ranked from lowest to highest average adjusted valuation per pupil and placed in percentiles. A district's percentile ranking determines when the district will be served by CFAP. Also, for most districts, the portion of the basic project cost paid by the district is equal to its percentile ranking. For example, a district ranked in the 20th percentile would pay 20% of the cost of the project and the state would pay the remaining 80%. For some districts, the district portion of the project cost is calculated under an alternative formula based on the district's existing permanent improvement debt where relative wealth is also a factor. OSFC is required by law to use the higher of the two calculation methods for the district's local share.

KEY

- All necessary construction and renovation work in the district has been completed.
- The facilities plan for the district has been either partially or fully funded and work is ongoing.
- District has been offered state funding, but has either chosen to postpone participation at this time ("Deferred") or been unable to raise their required local share ("Lapsed").
- District is participating in the Expedited Local Partnership program in anticipation of state funding.
