

# District Eligibility Ranking List

## Fiscal Year 2018

The Ohio Facilities Construction Commission administers several programs that provide state assistance to school districts in the acquisition, construction, and renovation of classroom facilities. Each of those programs is centered on the development of a Master Facility Plan that addresses the entire facility needs of a school district. The programs listed on this chart include the Classroom Facilities Assistance Program (CFAP), the Exceptional Needs Program (ENP), and the Expedited Local Partnership Program (ELPP). This chart reflects the program of each district through these three programs towards completion of all necessary facility work.

### Calculation of Project Funding Shares and the Use of Ranking Percentiles

A school district's priority for state assistance from the OFCC is based on the district's three-year average "adjusted valuation per pupil," as calculated by the Department of Education. Under that calculation, the district's taxable "valuation per pupil" is modified by a factor reflecting the income of the district's taxpayers. (A district's valuation is the total value of all property in the district as assessed for tax purposes.) All districts are annually ranked from lowest to highest averaged adjusted valuation per pupil and placed in percentiles. A district's percentile ranking determines when the district will be served by CFAP. Also, for most districts, the portion of the basic project cost paid by the district is equal to its percentile ranking. For example, a district ranked in the 20th percentile would pay 20% of the cost and the state would pay the remaining 80%. For some districts, the district portion of the project cost is calculated under an alternative formula based on the district's existing permanent improvement debt. In this alternative formulation, relative wealth is also a factor. OFCC is required by law to use the higher of the two calculation methods for the district's local share.

District has completed all necessary facilities work
District has received full or partial funding and work is in progress
District has received either full or partial funding and is seeking local contribution
District has received an offer of funding but was not able to acquire local contribution (some work may have been done in another program)
District has declined participation at present (some work may have been done in another program)
District is participating in the Expedited Local Partnership Program.

District	County	FY 18 Rank	3 Yr. Average Valuation	Program	Master Plan Status	Year Funded
