

# RFQ Question and Answer List

## State of Ohio Standard Forms and Documents

---

Project Name LeCl Door Controls Upgrades Project Number DRC-19F061

---

Date posted: [Date]  
Date revised: [If needed]

Below are the questions that have been received to date for the RFQ of the above-referenced project:

1. Can an Engineering firm be the Prime Professional for this project? Is it acceptable for the Engineering firm hire an Architectural firm, or partner with an Architectural firm?
  - A. Per the RFQ. The Prime professional must be an Architect. An engineering firm can partner with an architectural firm to meet the RFQ requirement for the prime professional firm. (An engineering firm cannot simply hire an architectural firm, as that would not fulfill the RFQ requirement).
  
2. Is it acceptable to submit a proposal without an Architect?
  - A. The referenced note does identify the lead A/E role as either/or, so you are correct in your statement that the required professional individual can be a P.E. However, please be aware that architecture services must be provided (in some manner) as requested in the RFQ.
