

# RFQ Question and Answer List

## State of Ohio Standard Forms and Documents

---

Project Name	Copeland, Porter & Life Science Energy Savings Improvements 2018 - Study Phase	Project Number	OHU-14648
Project Location	Ohio University Main Campus		

---

Date posted: 03.11.2019

Below are the questions that have been received to date for the RFQ of the above-referenced project:

1. If a Building Direct Digital Controls company should join our team for this study phase, will that preclude them from possible award of the actual renovation work?
  - A. Should a building DDC company partner with your firm for the Criteria Engineer role, that partnership will preclude them from being awarded the actual renovation work.
2. Is it anticipated that the implementation phase of the energy savings improvements will be executed as a design build project?
  - A. We anticipate this project being a design-build, with the Criteria Engineer being ineligible to participate as a member of the design-build team.
3. Is it anticipated the improvements for all three buildings would be implemented as a single project or as 3 separate projects (one for each building)?
  - A. We anticipate implementing all three buildings as a single project at this time.
