

RFQ Question and Answer List

State of Ohio Standard Forms and Documents

Project Name 17th and College Planning Study Project Number OSU-180444
Project Location Columbus Campus

Date posted: March 26, 2018

Date revised:

Below are the questions that have been received to date for the RFQ of the above-referenced project:

1. Could you expand on Scope of Services #5 – Access and Circulation? Will this analysis remain at a Master Plan level to ensure that the overall circulation network is maintained/enhanced or are you looking for a more detailed transportation study related to extending 17th Ave (Annie and John Glenn Way)? A transportation consultant was not listed under the services required in Section D, but we want to make sure we understand the project expectations.
 - A. We would expect the study to consider access and circulation related to the increased number of performances, student traffic, and staff access by the Department of Theatre, Moving Images Production, and School of Music. The increased level of both pedestrian and vehicular traffic will impact this area of campus. We'd like to understand this impact in more detail but a full traffic study wouldn't be necessary.
2. Can you please confirm that 5% EDGE participation is required for this study.
 - A. Yes, you would need to meet the 5% EDGE requirement on this project.
