

RFQ Question and Answer List

State of Ohio Standard Forms and Documents

Project Name Riffe – 6th Floor Lab Renovations Project Number OSU-200666
Project Location Riffe Building

Date posted: September 28, 2020

Date revised: N/A

Below are the questions that have been received to date for the RFQ of the above-referenced project:

1. Please clarify who will be selecting and specifying the equipment and furniture components during the design and CD stages? Does OSU need the AE to lead and document that effort or will this be by OSU with coordination of these elements on the construction documents? If AE is responsible for equipment and furniture specifications is this just for major lab equipment like ref, frzrs, washers, sterilizers, hoods, lab benches etc, or will it include microscopes, analyzers, seating, trash cans, and other smaller equipment, etc.
 - A. OSU will work in conjunction with the selected A/E team in the final development of the lab casework and equipment.
2. Is it anticipated that OSU will ask the hazardous material testing consultant to be directly hired under the lead A/E firm?
 - A. Yes, the hazardous material testing consultant will be part of the A/E team.
