Project Overview

A. Project Description

Commissioning firms shall provide professional services for confirming that constructed building systems meet operational design specifications and perform interactively in accordance with contract documents and owner objectives. Commissioning firms shall create effective electronic or web-based documents, plans, and log for conducting field observations, verifications, and operations for the building system completion.

Firms shall have engineering and field capabilities to develop and implement commissioning objectives, testing, reports, and meetings. Commissioning leaders on all individual projects must be LEED accredited within the first year of prequalification. Three years actual commissioning, leadership experience, and a professional engineering certification in the state of Ohio are required. The OFCC commissioning services include LEED enhanced commissioning as defined by LEED for Schools Enhanced Commissioning Credit, building envelop commissioning and other LEED related assignments appropriate for the consultant.

A commissioning firm shall also help implement an operation and maintenance plan based upon legislative and contractual requirements. The commissioning firm shall have three years' experience in facility total cost of operation, maintenance planning, and energy management. The commissioning firm will use OFCC documents, processes and procedures in the development and implementation of the Facility Operation and Maintenance Plan.

This selection process is to establish a pre-qualified list of consultants capable of performing enhanced commissioning services. The eligibility period for award of any contracts through the pre-qualified enhanced commission services list is July 1, 2020 through June 30, 2022. The Commission reserves the right to extend the eligibility period for an additional 24 months. The number of pre-qualified consultants is at the sole discretion of OFCC. Any firm pre-qualified is not guaranteed any work during the eligibility period. For the purposes of this selection, any OFCC administered project including State Agencies, Higher Education and K-12 School Districts may utilize this pre-qualified consultant list.

B. Scope of Services

The enhanced commissioning services include material quality and systems verification process conducted from the design phase (OPR and LEED Eco-Charrette) through the warranty phase and include seasonal functional systems tests. Service includes meetings, site visits, commissioning log, commissioning report, thermography report, and OFCC approved building operational maintenance plan. Commissioning Services for school construction shall be in accordance with the OFCC memorandum of agreement commissioning services. Services include findings of quality construction issues, which require review, evaluation, and assignment of responsibility.

Request for Qualifications (Commissioning Agent) continued

The selected Consultant, as a portion of its required Scope of Services and prior to submitting its technical and fee proposals, will discuss and clarify with the OFCC, the cost breakdown of the Agreement detailed cost components to address the project requirements.

F. Evaluation Criteria for Selection

The evaluation of the statement of qualifications will be based primarily, but not exclusively, on the following: (1) competence of the commissioning firm to perform the required management services, as indicated by the technical training, education and experience (including having LEED Accredited Professional team members as well as LEED project experience) of the firm's personnel who would be assigned to perform the services; (2) ability in terms of workload and availability of qualified personnel, equipment, and facilities to perform the required commissioning services competently and expeditiously; (3) past performance as reflected by the evaluations of previous clients with respect to factors such as control of costs, quality of work, and meeting of deadlines; (4) experience of the proposed personnel in using the Ohio School Design manual, (5) maintenance implementation plans and (6) other similar factors.

H. Submittal Instructions

Firms are required to submit the current version of Statement of Qualifications (Form F110-330) available via the OFCC website at <http://ofcc.ohio.gov>.

Electronic submittals should be combined into one PDF file named with the project number listed on the RFQ and your firm's name. Use the "print" feature of Adobe Acrobat Professional or similar software for creating a PDF rather than using a scanner. If possible, please reduce the file size of the PDF. In Adobe Acrobat Professional, go to Advanced, then PDF Optimizer. Also, please insert the project number and firm name followed by "SOQ" in the e-mail subject line.

Statements of Qualifications are to be submitted electronically by e-mail. Submittals are to be limited to a maximum of one e-mail with the total file size of 25 MB.
